PUBLIC CONSULTATION

Response to

Call for Comments by NICTA:

- 2600 MHz BAND PLAN**
- 3500 MHz BAND PLAN**

June 16th 2023

1 2600 MHz BAND

Kumul Communications Limited (KCL) has made comments on the previous Public Consultation regarding the 2600 MHz Band and notes Nicta's decision to use the TDD option.

We also note that the starting frequency of LTE Band n41 is 2496 MHz and not 2500 MHz as shown in the draft document and believe it to be a typing error.

2 3500 MHz BAND

KCL welcomes the opening of 3500 MHz Band.

However Nicta's intention stated in the background paper to provide 80 - 100 MHz channels per operator will not be met if only the 3400 – 3600 MHz segment is used. In this regard, and noting point 2.6 in the draft document, it may be necessary to wait until the outcomes of WRC 23 are known so that the band can be extended and harmonized.

3 PROPOSED TDD SYNCHRONISATION

Comments will be made when the document is posted.
