#### 3. 2010/2011 NICTA ACTVITIES

#### **General**

- Focus on Transition from the old regulatory regime to the new regulatory regime pursuant to the National ICT Policy 2008 and National ICT Act 2009
- Transition to the new converged NICTA
- ➤ NICTA's informative challenges: create the appropriate and responsive organization structure and acquire and develop the capacity and skills to successfully manage the transition and regulatory tasks at hand.

### 3. 2010/2011 NICTA ACTVITIES- Cont..

### Corporate

Inaugural meeting of the Board – Q1 (Mar)

1<sup>st</sup> Budget approved by Board – Q1 (Mar)

NICTA launch – Q1 (Mar)

NICTA logo & website (www.nicta.gov.pg) launched - Q1 Mar

Public Register established – Q2

Organizational structure adopted – Q3 (75/126 establishment)

Code of ethic adopted – Q3

Customer Charter adopted – Q3

Appointment and Gazettal of ICT inspectors – Q4

Protocol established with ICCC - Q4

Corporate branding commenced – Q4

### 3. 2010/2011 NICTA ACTVITIES- Cont...

### Licensing

#### ☐ License Migration

- Licensing Migration Notice Issued: Q1
- Licenses issued under the old regime to be migrated to the new regime by 29
   October 2011
- Nearly 90 percent of licenses migrated (including lisences for major operator Telikom PNG, Digicel) by 29 October
- Extension sought and granted by Minister for Communications to complete migration of the remaining licenses to 30 April 2012
- Amendments to ICT Regulations initiated

#### **□New regime implemented**

- License guidelines, forms and foundation documents created
- Applications received, processed under the new regime
- Awareness campaigns
- Class licenses for certain apparatus adopted Q3
- Development of license fee and structure Q4
- ICT operator license fee calculation methodology and interim fees submitted to Minister for Treasury – Q3
- Upgrading of Licensing Module of the Spectrum Management System Q3

### 3. 2010/2011 NICTA ACTVITIES- Cont...

Licensing- Cont..

□ Summary of Operator Licenses issued

Individual Network (Gateway) License	10
Individual Network License	10
Individual Applications License	26
Individual Content License	17
Registered Class Licensees (Private / non-com.)	33

For detailed listing refer to NICTA Public Register <a href="https://www.nicta.gov.pg/public\_register/operatorlicenses">www.nicta.gov.pg/public\_register/operatorlicenses</a>

### 3. 2010/2011 NICTA ACTVITIES- Cont...

### **Enforcement, Monitoring and Investigations**

- Conduct investigations as required
- Constant monitoring of radio frequency spectrum
- Initiate enforcement action as appropriate enhance capacity for effective policing
- Attendance to consumer complaints

### 3. 2010/2011 NICTA ACTVITIES- Cont...

#### **Review of NICT Act 2009**

- Review of the NICTA Act commenced Q3
- As with any new and different legislation, it is necessary to take stock and find out how the legislation is working in practice, and whether any improvements, clarifications or other changes are needed to make the Act and its administration better.
- As a result, NICTA two telecommunications regulatory experts to conduct an independent review of the Act and its administration, to present the review's findings to NICTA and to the Minister for Information and Communications.

#### 3. 2010/2011 NICTA ACTVITIES- Cont...

# Development of Rules and Guidelines (Mandatory Instruments)

- Specific Pricing Principles Q2
- Temporary Authorizations Q3
- Spectrum Trading Q3
- Guideline on Spectrum Fee Formula Q4
- Rule on Standard and Special Terms and Conditions of Operator Licenses – Q4

### 3. 2010/2011 NICTA ACTVITIES- Cont...

### **Engineering & Resource Planning**

- Re-planning of the 900 MHz spectrum
- Digital Dividend Planning to 700 MHz
- Spectrum access, transition, migration, rights
- Review of numbering plans
- Review and updating of technical standards
- International Coordination

#### 3. 2010/2011 NICTA ACTVITIES- Cont...

### **Universal Access Regime**

- establishment of UAS Secretariat
- Implementation of Rural Communications Program

#### **Economic Regulation**

- Public Inquiry into the need for a Retail Service Determination regarding certain mobile telephony services – Q4
- Consultation on interconnection reference offers Q4

### International relations & Cooperation

- Preparation for the WRC 12
- Spectrum Framework PNG/Indo JBC
- Technical assistance programs APT, ITU

#### 4. CHALLENGES GOING FORWARD

Though we have in place a converged Regulator and a converged legislation which we believe to be futuristic we still have challenges in implementation like:

- 1. Development of Content Regulations
- 2. Building regulatory capacity to meet increasing demands in the market
- 3. Economic Regulation
  - sector-specific Competition Regulation
  - Wholesale regulation
  - Retail regulation,
  - facilities sharing, etc..
- Analogue to Digital Broadcasting conversion and Digital Dividend, ITU Region 3;
  - NICTA Board approved the process in July 2011
  - ➤ First block of 15 x 2 MHz assigned rollout commencing 3<sup>rd</sup> Qtr 2012

#### 4. CHALLENGES GOING FORWARD- Cont...

- 6. UAS areas and services need to be redefined as they are shrinking as competition is extending the access.
- The economy continues to grow with major investment projects in the country placing pressure on the existing ICT infrastructure and demands for new services;
- 8. With greater broadband uptake and convergence, definitions of licensing categories are diminishing (ie. Applications Vs Content);
- 9. Development of Regulations, Rules, Guidelines and Codes; and
- Encouraging industry and consumer groups to participate in development of industry codes.
- 11. New NICTA Headquarters Building Trust Account open
